DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3,5-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3,5-21 are rejected for not standing on their own. Claims give reference numbers that are located on diagrams in the body of the specification. Correction Required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,5-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukuda (US 417678; 11/27/79) on record. Fukuda teaches an intermittent aerosol dispensing device having a valve. In a claim to a device, a statement with respect to how the device is used (injection time to stop time) has no patentable significance. In the instant claims the device has a injection mechanism (injection means), value and a button (switch). See reference.
